I am currently in the process of building a residence along you route. To be specific, T9S - R40E Sec 1 SW/SW, right beside hwy 86 at the foot of Flagstaff (Baker City area).

The map shows an Alt route directly over my property. When the house is built, this spring/summer, it will probably be within the corridor of that proposed route.

I encourage you to continue along your proposed route, east of the Ore. Trail Interpretive Center, to help avoid any conflicts.

Thanks

Mike Carnahan
