I believe putting this power through private property is wrong. They own that property fair and square it should be their decision if they allow someone to destroy it will power lines. Not only would these lines kill the natural beauty of McKay creek but also the lively hood of Baily Performance Horses. This could greatly impact their live and their children's lives. The Anderson family has been on that last for many years and have worked hard to maintain it's nature beauty, no one should have the right to take that from them.
