My comments on the Boardman to Hemingway Transmission Line Project are:

The timber Canyon route on the NE side of Keating  
is a lousy idea.

My preferred route in the Flagstaff Hill area  
would be to use H towers and stack the  
new line on top of the existing. This would  
minimize change. If that is not possible, put  
the new line as close to the existing line over  
Flagstaff hill, but on the east side of the  
existing line. This would reduce impact on farmland.
