regarding B2H

Putting a power line across McKay Creek and destroying the heart and soul of the Bailey Horse Ranch is unthinkable. Obviously the pencil pushers and backroom cigar-chompers do not give a damn about the damage they are doing to the environment and my grand children's lives. Perhaps a federal judge will. Idaho Power's lying ways will catch up to them. I'm sure they are used to this charade of input but nobody in the good old USofA is exempt from responsibility for their crimes!
