B2H Committee,

During numerous previous public meetings and forums the citizens of Baker County have spoken loudly and often that they do not want your transmission lines to run through Baker County. The power that it will carry ultimately will not be of any benefit to Baker County or its residents. It is obvious that you do not have our citizens or our beautiful area in our best interests. Instead, you are only planning for your future expansion and profits. Do the right thing for Baker Valley and do not build your lines in our beautiful Baker County as these lines will adversely affect our view-scapes, culture and way of life here.
