Subject: Boardman to Hemingway transmission line project (B2H)

My wife and I continue to reject the Boardman to Hemingway transmission line project (B2H). There have been many meetings held in this area and the folks here are against this power line coming through this valley. It would impact wildlife as much here as if elsewhere and would detract from the natural beauty of this area as well. We, the community, have stated over and over again that we do not want it run through here. We do not want it in our back yard spoiling the view and lowering our property values. Power generated in Oregon by Idaho owned business for Idaho use is not good for Oregon.
