My comments on the Boardman to Hemingway Transmission Line Project are:

I am opposed to Idaho Powers proposed route going near Brogan, OR. That route interferes with sage grouse habitat, interferes with the pristine natural beauty of this region, would negatively impact the natural wonder of Brogan canyon, and I live in Brogan partially because of its natural scenic views that I hope are not destroyed by a huge powerline.

The Tub Mountain alternative route destroys less scenic views, uses a higher percentage of government property, and it appears to me the terrain is more receptive to construction of a huge powerline and its maintenance requirements.
