As an Idaho resident as well as an Idaho Power customer, I do not agree with the B2H project. This project will destroy so many family's homes, land, and traditions. One family I would hate to see this happen to is the Bailey family from Pilot Rock, OR. Shana Anderson Bailey grew up in McKay Creek and is now raising a beautiful family there. Anderson Livestock started in that location, as well as Bailey Performance Horses and Shana Bailey Photography. B2H will put those businesses in jeopardy after they worked so hard for so many years to become successful. Shana's children will not be able to run around THEIR FAMILY OWNED LAND with construction going on as well as having power lines surrounding them. Idaho Power is a major company and doesn't seem to care about small businesses and families. All they care about is making money which is sickening to me. I say NO to B2H and say, GO BACK TO THE DRAWING BOARD. Find a plan that will not jeporodize numerous businesses, homes, and family traditions. Do the right thing.
