This project is a crime against the people of Oregon, the land of Oregon, and the earth we all share. To despoil miles of territory in order to move dirtily generated power through eastern Oregon to feed the "needs" of uncaring, avaricious, boorish neighbors is nothing less than a crime. Tell you what - let's give Idaho the Boardman plant, along with free oversize load permits, and let them move the filthy thing to their own state. At any rate, kill B2H. Kill it dead. Kill it now. Idaho is already a bad enough neighbor, let's not reward their ill manners. B2H? It's Dirty And Hurts Oregon.
