My comments on the Boardman to Hemingway Transmission Line Project are:

Our concern on the route of B2H transmission line is that line should never be on or over Glass Hill, do to the habitat of Elk, Deer, Bear & turkeys. Think forest & wild life!
Plus all our efforts to manage our property by planting trees after removing the budworm fir trees.
Our family care about our forest & animals, our children, grandchildren & great grandchildren cherish our life on Glass Hill. That power line will destroy all of the above.
California & Nevada can still get your power threw another route for B2H transmission line.
