**Subject:** 4460: Boardman to Hemingway Transmission Line Project

I contacted a Idaho Power rep a few months back trying to find the distance from my private property to the proposed line. My address is 1435 Cow Hollow rd, Nyssa Oregon. The rep could not give me the distance. I don't like your proposed route & think it needs pushed out farther from private property. Malheur alternative routes either A or B south of Adrian much better. I think the line that close to private property will decrease the value & be an eye sore. Please respond to my concerns.
